## Soccerites Meet

There was a good attendance of soccerites at the football meeting last Tuesday evening. J. R. Watt was in the chair and the following officers were appointed: W. Pritchard, Capt.; C. T. Baldwin, Vice-Capt.; J. S. Brown, Sec.-Treas.; C. G. Watt, S. O. Brown, John Jack. The treasurer reported the financial standing good. It was

decided to get corner flags placed in position, to paint the goal posts and to have the field put in condition. A game will be arranged, probably for Victoria Day, the proceeds to be turned over to the Park Association. If the baseball outcasts would follow this example the grounds could be put in excellent shape for athletic purposes.

Political conventions are just now as thick as bees in swarming time.

## Grain Belt Box Social

A very enjoyable evening was spent by those who attended the entertainment at the Grain Belt Schoolhouse the other night. An excellent program of a literary nature was put on and a box social supplied one of the necessary parts of the program. The proceeds went to the funds of the Methodist work at that schoolhouse. An able address was given by Rev. McGee, the pastor in charge of the work in that district.

The series of union special meetings will close on Sunday night, March 10th, with a mass meeting in the Opera House at 7:30 p.m. At 10:30 a.m. on Sunday a prize service will be held in the Methodist Church and at 11 o'clock Mr. Ranton will preach on the subject, "O Be Joyful." Sunday evening's theme will be, "The Man on the Down Grade," a subject of especial interest to men. Special music at both these services. The subject for to-morrow (Friday) night will be, "Three Scarlet Sins of Clareisholm," and on Saturday evening, the subject will be "A Race for Life, and How To Win It."

In spite of the unfavorable weather on Wednesday night there was a large attendance and the interest in these series increases as they draw to a close. Sunday will no doubt be a great day. The Opera House was crowded last Sunday evening but plans are being carried out to increase the seating capacity for next Sunday. To be sure come early. Mr. Ranton goes from this place to Davidson, Sask. and then to Watsika, Ill.

On Monday evening Mr. Ranton will deliver his now celebrated Lecture on "From the Bar Room to the Pulpit." The admission will be free; but by ticket. A limited number will be distributed and those who desire to attend had better apply for them at some of the services before Sunday night.

## Whist Tournament Finals

The fate of the Guy Whist Tournament was decided by the results of last night's games. J. F. Reynolds who and held the lead for some weeks maintained it through the final engagement and now is the holder of that gentlemen's trophy. Miss Reid who was six points behind Mrs. Hall, overtook her opponent and tied for first place. It was decided to play off this tie and Miss Reid with Mr. Hall as partner lost out to Mrs. Hall who had Rev. Henderson as partner. The beautiful outclassing race goes to Mrs. Hall. The contest throughout has held the attention of a large number of whist players and has furnished entertainment for several weeks. The cup donated by Mr. Guy to the handsome silver mounted on an ebony stand and is trophy well worth contending for, while the vase is one that any of the ladies would be proud to give to someone. A hearty vote of thanks was given to Mr. and Mrs. Guy for the handsome and valuable gifts.

## Council Meeting

At the council meeting last Thursday evening new committees were drafted owing to the resignation of J. F. Reynolds. As these committees now stand Finance and Police is looked after by Councilmen James Brown and Rose; Light, Councilmen Brown, Hutton and Rios; Water, Councilmen Rios, Rose and James; Health, Improvements and Cemetery, Hutton, Rios and Rios; Fire, Rios, Brown and Hutton; Hospital, Relief and Publicity, Rose, Booth and James. A by-law was passed ratifying the agreement with the Dominion Bank by which the town hypothecates the uncollected taxes to the Bank as security for the credit of the town at that Bank. The resignation of P. H. Going as engineer at the power house was accepted. The Breckinridge matter came up for discussion and as a result the town decided to accept the contractor at once. It was also decided to cease delivering water to consumers by means of the tank. The town team will be sold and the truck rented to some responsible person who may wish to go into the business. The report of the auditor appears in another column in this week's issue.

Order your Easter flowers and plants early. Call or phone the Review office and your orders will receive personal attention.

J. W. MacKinnon returned from Georgetown Tuesday.

The annual meeting of the baseball club will be held at the schoolhouse next Saturday, March 16th.

Mrs. Bissett has returned from a lengthy visit to her parents in Eastern Canada.

Mrs. Bagley is visiting her parents at Blair Knows ranch.

A large delegation attended the Liberal convention on Wednesday.

And while Clareisholm chicken raisers are telling us how to do it, perhaps Ernie Moffatt can tell us how much it costs to raise a chicken. No, we didn't do it.

The farmers' meeting on Saturday drew a fair sized crowd although farming operations are beginning to claim attention. Mr. Matchow was present and addressed the meeting. J. B. Allison, of Granum, and D. A. Mackinnon, also spoke but neither seemed to favor Mr. Matchow's candidature. The ladies who spoke came out more fully. They were strong for "Votes for Women." Mrs. Brown and Mrs. DeForest were the speakers.

## A Big Ranch Deal.

A deal of some magnitude was completed this week by which the old Honey ranch near Furman, with stock, etc., became the property of Fred Burton who purchased from C. E. Weger. This, added to the present holdings of Mr. Burton will give him a very large holding in the country. Mr. Weger thus comes to have any Alberta interests and will go shortly to Kiah, Cal., where his father resides.

## Temptations Too Alluring

With an oyster supper as a penalty a half dozen of the "bank bachelors" entered into a conspiracy to ignore the fair sex entirely. A penalty was attached to even talking over the phone to any of the gentler sex and the boy who had his score reduced to zero became eligible to pay for the oysters. Peter Gray with commendable self-control was the only one to preserve his perfect score. J. S. Brown had all the boys down to zero while Jimmie and Edgar rushed down the scale with alarming speed. The latter are elected. And now it is expected the girls will add to the punishment for the audacity which prompted the plot.

## Easter Floral Decorations.

Get your orders in for Easter. Those early to avoid disappointment. Delivery will take place seasonally. Drop into the Review office and have your order and it will receive personal attention. An Easter without flowers is no Easter at all. Potted plants, Easter lilies, and cut flowers are appropriate gifts for your best girl and especially so for your best girl to whom you have been married for years. Surprise her.

## Sale of Fancy Work and Home Cooking.

The Ladies of the Woman's Auxiliary of St. John Church will hold an afternoon tea at the Parish Hall on Saturday, March 16th, from 3:00 p.m. There will also be a sale of home cooking which will afford the housewife a chance, to secure duties for the Sunday dinner. Some fine articles will be offered for sale as well as the product of the needle, etc., and some handsome favors. St. Patrick's Day may be pictured. Everyone is invited to this tea and sale of fancy work and home cooking.

The utilization of what has hitherto been regarded a waste product of the wheat fields, is the object aimed at by those who are promoting the company for the erection of a paper mill at Melville Hat. There is already considerable capital which has been attracted to this proposition as a good investment but those who are at the head of the enterprise wish to give the farmers an opportunity not only to sell their straw but also to profit by the increase in value of the stock of the company by being the owners of shares in the company. It is the farmers' own policy of co-operation which they wish to see in operation in this enterprise. The Alta-Sask. Paper Co. advt., on another page tells the story most interestingly. Turn to it and read it right now.

## A Big Stock Sale

Large posters are out announcing a horse and cattle sale at the Palace Livestock Stables on Saturday, March 16th at 1 p.m. D. B. Vanhorn is selling by public auction 40 head of milch cows, Ben Finlayson is offering for sale seven imported Clydesdale stallions and mares and a number of farm work horses, entered by farmers and others will also be sold. Pat Murphy will wield the hammer. Catalogues containing the pedigrees and descriptions of his horses may be obtained upon application to Ben Finlayson, Clareisholm, Alta.

## Provincial-Treasurer III

Edmonton, March 12.—Hon. Malcolm McKenzie, who has been absent from the house for several days, is threatened with appendicitis, though his physicians are unable to say whether an operation will be necessary. Mr. McKenzie also contracted a severe cold last week and this added to the seriousness of his condition.

## K. P. Convention

CLAREISHOLM WINS CUP  
Odds, Alta., March 12.—At the sixth annual convention of the Grand Lodge of the Knights of Pythias, which closed a two days' session here Friday, the following grand lodge officers were elected for the ensuing year:

P. G. C. A. M. Ritchie, Lethbridge; C. C. R. J. C. Stevens, Odds; G. V. C. W. L. Lewis, Selkirk; J. B. Rose, Clareisholm; G. R. of R. and S. Chas. H. Stapleton, Clareisholm; G. M. of E. J. W. Crawford, Chatham; G. M. of A. W. G. Alley, Edmonton; G. I. G. Alex. Brown, Lethbridge; G. O. T. J. G. Harper, Lethbridge; S. H. for term of four years, E. P. Bourke, Selkirk; grand trustee for three years, T. P. Mosley, Clareisholm.

The Clareisholm delegates returned home with a beautifully engraved silver cup given by Supreme Representative C. F. P. Conyngham, of Lethbridge, in competition for the finest compilation of resolutions on the part of provincial subordinate lodges. The cup must be maintained for three years before being accepted for the property of a subordinate lodge. Although the attendance was not as large as had been expected, a large number were present to discuss legislation, grab and progress of the order and to enact new laws pertaining to the advancement of Pythian affairs in Alberta. Grand Chancellor, M. Ritchie, of Lethbridge, opened the session at 10:30 o'clock on Tuesday morning and the usual routine work was finished by noon. After luncheon, committee work occupied the time until 4 o'clock. At the delegates received a splendid address of welcome from Mayor Grant, of Odds, and H. B. Hartman, chairman of the session at 10:30 o'clock on Tuesday morning and the usual routine work was finished by noon. After luncheon, committee work occupied the time until 4 o'clock. Your enjoyment of a photograph depends not only on the number of selections. It depends on the quality of each. The

### Edison Blue Amberol Record

was invented on the quality idea. It produces the most clean cut, lifelike and beautiful tone you ever heard.

It will never wear out and indifferent handling of it or dropping it on the floor won't break it. It is constant in its ability to please.

Your Edison dealer will be glad to play Blue Amberol Records for you.

# BECOME A PARTNER IN THE PAPER MANUFACTURING

BUSINESS, THIS MEANS YOU. HELP BUILD THE MILL.

## SHARE IN THE PROFITS!

What will the partnership interest cost? From \$100 to \$5000.00 according to your means. What dividend or profit will it pay per year? It is estimated that it will pay a dividend of AT LEAST 25 per cent. and earn profit enough to put 50 per cent of THE VALUE OF THE TOTAL CAPITAL STOCK INTO A RESERVE FUND, TO BUILD OTHER MILLS or to be appropriated to THE STOCKHOLDERS, as they themselves may choose. What is the capitalization? \$300,000.00, divided into 300,000 shares of a par value of \$1.00 each, fully paid and non assessable. On what terms can these shares be bought? One quarter cash and the balance divided into three equal payments, in one, two and three months. How can these shares be secured? Ask the local business men mentioned below or cut out the inquiry coupon and mail it direct to the company. Why is the business sure to be profitable? BECAUSE:

1. This Company pays out of its treasury no sum of money for its site.
2. This Company has free fuel for five years, a saving over the American and Eastern Canadian mills of approximately \$20,000.00 per year. At the expiration of our contract with the City of Medicine Hat we can bore our own gas well at an expense of about \$5,000.00 and have our fuel free permanently.
3. We have free truckage.
4. Our site is located in the centre of the Great West, where millions of dollars are expended annually for paper products.
5. We will have an abundant and excellent supply of water free.
6. We have the advantage of exorbitant freight rates charged against our distant competitors.
7. We have the advantage of a general customs tax or tariff on all imported paper of 33 1-3 per cent. which in itself would make a very satisfactory profit to any manufacturer.
8. We have one of the best sites for an industry of this kind that can be found on the continent.
9. For a market we have practically a monopoly of all of Western Canada, and we can export to Australia and New Zealand under tariff advantages.
10. For a great industry of this character we are capitalized for a very conservative amount.

**THE ABOVE FACTS** conclusively show that we are in such a position that it is impossible for outside or local straw paper making concerns to compete with us in the Prairie Provinces. Can you possibly conceive of a more substantial and profitable investment? Sound industrial shares purchased at par, frequently rise from One Hundred to Five Hundred percent. in value. Our \$1.00 shares will, in all probability, be worth from \$2.00 to \$3.00 within a comparatively short time after our mill is in operation.

We already have inquiries for our products to such an extent as will pay more than 35 per cent per year on our entire capitalization. Now is the time to get in on the Ground Floor, Before the shares advance. The subscription books are now open and Shares may be secured at One Dollar each, in blocks of 100 shares or more, payable one quarter cash and the balance in one, two and three months.

## History Development and General Facts About Alberta's New Paper Manufacturing Industry

That straw board is the pioneer box board has been established beyond dispute and notwithstanding the many attempts to manufacture a box board that will take its place in the market, it is still acknowledged to be the best material for the purpose, and holds a lively preference among the leading paper box manufacturers of the country.

The manufacture of straw board and paper from straw is not a new process. It is claimed that the Spaniards began the conversion of wheat straw into paper as early as the year 1640. Hood covers, boxes, baskets, house roofing then being made in a crude but serviceable manner.

These people undoubtedly did not know the use of lime and chemicals as they are used today for a cement, but instead held fast the old ground straw with clay. The straw was ground the same way that all primitive people grind their wheat and corn, by placing the straw between two large smooth stones, turning the upper stone until the straw is pulverized.

There was but little advance made in the art of paper and board manufacture until the twentieth century. In our younger days we bought of the merchant, butcher and others, articles wrapped in straw, paper, and our homes we papered with wall paper made from straw. This kind of wall paper is still in use in many countries.

Applied chemistry during the past fifteen years has played a very important part in the development of the great paper industry.

Applied chemistry has done wonders in multiplying the forms and improving the qualities of the paper produced from straw.

As we manufacture in this line, evidence that the next year or two will show further developments of paper, in form, quality, and texture, which will please and astonish the paper-using world.

At the present time the chief source of paper material supply is derived from timber. That this supply is decreasing to an alarming extent is shown by the following statements made by ex-Senator Victor Miller, one of the foremost wood pulp manufacturers, before the International Congress of Applied Chemistry, held at Washington, D. C., in November last.

"A very great fortune awaits the man who can discover a good substitute for the pulp made from spruce timber, but in order to gain that fortune he must show us how to cultivate an annual plant. In my opinion Applied Chemistry will sooner or later show the paper manufacturing industry of the United States how to utilize the various products which have always been regarded as not merely waste, but a nuisance, so that they may be available for the manufacture of paper."

As will be seen from the foregoing, the industry and production of straw paper is fast passing when valuable timber at a reasonable price can be had for its conversion into paper and board. Change, therefore, is coming into paper and board from the thousands of acres of straw that we have hitherto destroyed, namely to this country.

## WILSON TAKES OATH

**BRILLIANT SCENE MARKS THE INAUGURATION OF CANADA'S NEW PRESIDENT.**

New President of the United States, in his inaugural address, has pledged to lead him in the guidance of Good Government.

Washington.—Woodrow Wilson, of New Jersey, was inaugurated March 4, as President of the United States, by Thomas Marshall, of Indiana, as Vice-President. Democracy, the party which carried his destiny, it was an intensely human precedent breaking inauguration.

With members of his chosen cabinet, surrounded him, the justice of the Supreme Court before him, his wife and daughters standing by, he stood on the platform before, and William Taft, ex-President at his side, the new President shouted a summons to all honest patriots, forward looking men, to aid him, extending the promise that he would not fall them in the guidance of their Government.

While the President's concluding inaugural words were being in tumultuous words of applause, the retiring President clasped his hand and called as a part of the inauguration ceremony.

Mr. President, said Mr. Taft, his face beaming with a smile, I wish you a successful administration, and I am carrying out of your aims. We will all be bound to you.

As he turned to shake the hand of his Secretary of State, President Wilson, in his inaugural address, said: "I have taken the oath of office as President of the United States, and I have taken the oath of office as President of the United States."

The military and civic pomp that followed this climax of the day was more than five hours in passing. Leaving Capitol Hill at 10:30 a.m., the afternoon, the marching band, which had not left the city until 10:30 a.m., followed the President in the court of honor until long after darkness had fallen. President Wilson stood for more than an hour under the glare of myriads of brilliant electric lights, and the thousands in a long line, among them the hosts of Princeton, who had passed him, shouted a hearty greeting that he heard with a thrill.

Ceremonies in the senate chamber which marked the inauguration of the second and the vitalizing of the new act—thirty congress, embracing the inauguration of Vice President Marshall, and the swearing in of the senators and congressmen, were held in the senate chamber. Though delayed somewhat by the failure of the legislature to convene at half past eight, the hands of the clock, the interest was tense, the procession into the chamber, the members of the House of Representatives, ambassadors and ministers of foreign countries in all their brilliant regalia, chief Justice Marshall, of the supreme court in their robes, the President-elect, and his wife, and the members of the congressional administration, all were in the hall.

## BUTTER TRADE TO UNITED KINGDOM

Interesting Figures in Report from the Canadian Commissioner.

Ottawa.—The butter trade of the United Kingdom is made up of a highly interesting report to the trade and commerce department from W. Dean presents some figures which will prove rather surprising to most Canadians.

The movements of butter in the world market are at the present time very quiet. The Canadian Commissioner reports that the United Kingdom has received a large quantity of butter from New Zealand butter being shipped in large quantities to Vancouver.

With members of his chosen cabinet, surrounded him, the justice of the Supreme Court before him, his wife and daughters standing by, he stood on the platform before, and William Taft, ex-President at his side, the new President shouted a summons to all honest patriots, forward looking men, to aid him, extending the promise that he would not fall them in the guidance of their Government.
